

PACKEX TORONTO 2015: Rexroth mobile app Fit4Filter 3.3 makes ordering Rexroth filters faster and easier than ever

05/28/2015

For Immediate Use

Integrated QR code scanner, updated part listings, added language support offer significant upgrades for mobile app users.

Fit4Filter v3.3 from Rexroth includes an integrated QR code scanner to find the right Rexroth replacement filter elements faster than ever.

Fit4Filter smartphone app v3.3 includes QR code scanner, new search functions

Bosch Rexroth has released the latest version of its **Fit4Filter** smartphone app, which allows customers to cross reference and replace their existing hydraulic filter elements with the corresponding Rexroth filters. The app, now at version 3.3, is available for both Apple® and Android™ devices and is an outstanding tool for upgrading filter elements on hydraulic power units in virtually any application—plastic injection molding machines, offshore drilling equipment, machine tools, metal stamping machines, steel making equipment, and more.

Fit4Filter includes cross references to thousands of filter elements, and a unique “sync-on-demand” feature allows users to update the app with new filter elements and other data with just a few finger taps. A highlight feature in the latest update is an integrated QR code scanner, which can be used to scan codes on Rexroth replacement element stickers to quickly and accurately build a list of replacement filter elements. This new scanning feature eliminates part number transcription errors, and the resulting list can then be easily emailed or sent via SMS to Rexroth filter support personnel worldwide for a local price quote. QR-code equipped stickers will be supplied with Rexroth filter elements shipping. Users simply apply the sticker in a prominent location on or near the

For Immediate Use

The app also indicates whether the selected Rexroth filter is part of the company's GoTo Focused Delivery Program for North America; and for U.S. users, the app also supplies direct links to specific Rexroth filter elements available on Amazon.com. For users in other countries, the new version offers expanded language support, too, including English, German, French and Portuguese. Additionally, the app also offers the most up-to-date contact information for Rexroth filter support personnel in 29 countries, so that customers worldwide may inquire locally about replacement filters. Connecting with the appropriate Rexroth contact person is easy with built-in e-mail links and one-touch dialing.

"OEMs and equipment owners are constantly on the lookout for mobile apps that will save them time, and the latest version of **Fit4Filter** includes new capabilities that will make it faster than ever to identify and locate replacement parts right from the job site and the factory floor," said Kerry DeWitt, Product Manager Filtration Systems Sales. "It's a significant upgrade over the previous version."

Fit4Filter is available now in the Apple App Store and the Google Play™ Store.

Press Release

05/28/2015

For Immediate Use

The Bosch Group is a leading global supplier of technology and services. It employs roughly 360,000 associates worldwide (as per April 1, 2015). The company generated sales of 49 billion euros in 2014. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. The Bosch Group comprises Robert Bosch GmbH and its roughly 440 subsidiary and regional companies in some 60 countries. Including its sales and service partners, Bosch is represented in roughly 150 countries. This worldwide development, manufacturing, and sales network is the foundation for further growth. In 2014, Bosch applied for some 4,600 patents worldwide. The Bosch Group's strategic objective is to create solutions for a connected life. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is "Invented for life."*

Additional information is available online at www.bosch.com, www.bosch-press.com and <http://twitter.com/BoschPresse>

*The sales figure disclosed for 2014 does not include the former joint ventures BSH Bosch und Siemens Hausgeräte GmbH (now BSH Hausgeräte GmbH) and ZF Lenksysteme GmbH (now Robert Bosch Automotive Steering GmbH), which have since been taken over completely.

In the U.S., Canada and Mexico, the Bosch Group manufactures and markets automotive original equipment and aftermarket products, industrial drives and control technology, power tools, security and communication systems, packaging technology, thermotechnology, household appliances, healthcare telemedicine and software solutions.
